OFFICE OF THE DD/I

MEMORANDUM FOR: The Director

Last month we were informed that Ray Cline would monitor Government-sponsored international economic research activities on behalf of Peterson's Council. The instructions were to send INR two lists: 1) our internal and external research projects and 2) our consultants on the subject. Ed Allen tried to talk Ray out of the consultant list with no success. On 14 May you sent a note to Kissinger citing this as an example of White House demands and asking for guidance.

This week Ed met with the INR action officer (Joe Mintzes). Mintzes agreed that we need send him only a list of the less sensitive research items but NO list of consultants. Problem solved!
